

Welcome to the New Town Family!

4 January 2022

## **Phases of Our Economic and Education System**

**Innovation-Driven** 

Industrialisation

Survival Driven
 1959 – 1978

Skills/Capital-Intensive

Efficiency Driven • 1979 – 1996

Knowledge-Based

Ability-Based, Aspiration Driven

1997 – 2011

Student-Centric, Values Driven

2012 onwards

# **LEARN FOR LIFE**

Our MOE Agenda

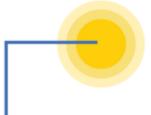

Stay future-ready:

Refreshing our Curriculum

Structural change:

Nurturing the Joy of Learning

Support our educators:

SkillsFuture for Educators

Structural change:

One Secondary Education, Many Subject Bands

Hold on to our roots:

Learning Languages for Life

Basic purpose:

Education as an Uplifting Force

### Goals of Education

## A Vibrant and Cohesive Singapore

#### 1. Nurture the child

- Maximise our children's potential
- Provide multiple pathways to success
- Offer values-based education
- Instill in them a sense of belonging, reality and hope – with a will to act

#### 2. Develop the citizen

- People are Singapore's only "natural resource"
- Education prepares our children for their role in an increasingly uncertain and globalised world

OVERVIEW

#### 'Learn for Life'

- New phase of our education system
  - Develop diverse strengths and interests of our students,
  - Nurture an intrinsic motivation to learn
  - Ensure every child has a good start in life, and can access opportunities at every stage of their lives

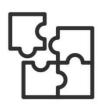

## **Balancing Trade-Offs as a System**

Rigour vs. Joy A robust and comprehensive curriculum versus one that makes learning fun

Sharpening vs.
Blurring of
Achievements
Examination results as a useful tool for placement, against less finely defining learning outcomes; avoiding an overly competitive culture in schools

Customisation vs.
Stigmatisation
Catering to different
learning paces but not
stigmatising groups of
students who are less
academically inclined

Skills vs. Paper
Qualifications
Attaining credentials
versus acquiring skills
that make a person
effective for the job

## Nurturing the Joy of Learning

- Reduction of School-Based Assessment Load
  - Holistic assessments in primary schools
  - Removal of mid-year exams for P3, P5, and S3 by 2021
- Changes to PSLE Scoring
  - Reduce overly-fine differentiation between students & unnecessary competition
- Broadened Definition of Merit in Admissions
  - Expansion of Direct School Admission (DSA) and refinement to DSA policy
  - Aptitude-based admissions in IHLs
- Applied Learning in schools

## Comparison of Old and New PSLE Scoring Systems

	Old PSLE Scoring System	New PSLE Scoring System
PSLE Scores Computation	T-Scores	Achievement Levels (ALs)
Performance basis	Comparative performance within cohort	Absolute performance
Level of differentiation	More than 200 possible T-scores	Range from 4 – 32
School Posting	Based on academic merit (PSLE Aggregate Score)	Based on academic merit (Total AL Score)  Choice order will now be used as tie breaker.

## One Education, Multiple Pathways

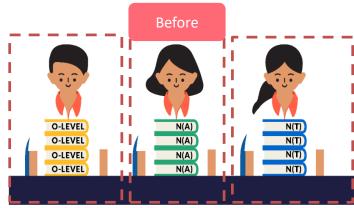

## Full Subject-based banding

- Customise learning to students' subjectspecific strengths and interests
- Reduce stigmatisation associated with stream labelling
- Increase porosity in post-secondary education pathways
- Cultivate a growth mindset in students

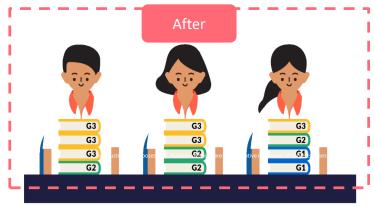

## One Secondary Education, Many Subject Bands

With Full SBB, students can take subjects at different academic levels G1/G2/G3, which are mapped from today's N(T), N(A), and O-Level subjects respectively

Students in different streams would be in different classes

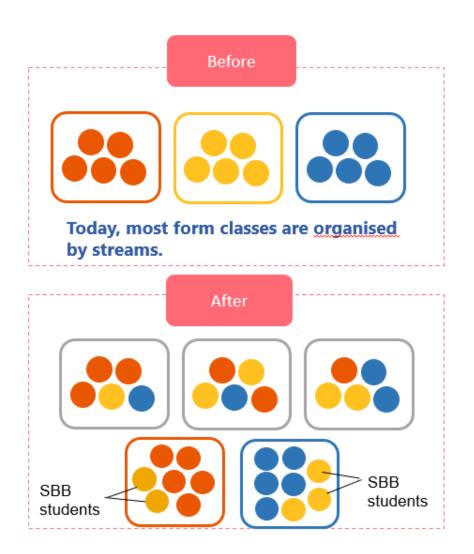

Students in the same class can take subjects at different levels

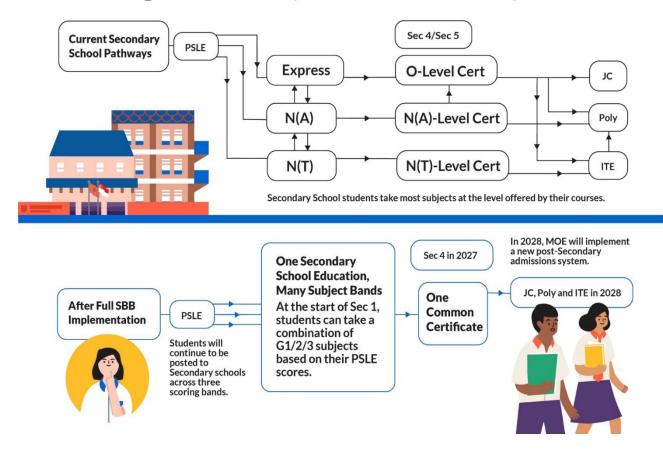

## One Secondary Education, Many Subject Bands

With Full SBB, students in the form class will learn a common curriculum for some subjects like Art and CCE, which comprises 1/3 of curriculum time.

For other subjects, students attend classes with others taking the same subject level.

### Remaking Secondary School Pathways

## Refreshing our Curriculum for the Future

#### Digital Literacy

 Prepare students to thrive in a digital and tech-driven future

#### Blended Learning

 Accelerate learning through digital tools by COVID-19

#### Character and Citizenship Education

 Equip students with strong sense of values, resilience and skills

#### Knowing Asia

- Seize economic opportunities in Asia
- Enhance support for language learning

## Strengthening Digital Literacy

 Enhanced cyber wellness education

Introduce personal learning devices (PLDs) to all Secondary students by 2021

- More schools to offer O-Level and A-Level Computing
- Deepen computational thinking through Mathematics curriculum

#### REFRESHING OUR CURRICULUM FOR THE FUTURE

## Integrate Blended Learning as integral feature of curriculum from 2021

Complementing school experience with Home-Based Learning (HBL)

- Encourage more selfdirected, independent and intrinsically motivated learners
- Dedicated time and space to explore interests and learn outside the curriculum

### **Nurture Qualities and Attributes for Life**

- Refreshed
   Character and
   Citizenship
   Education
   curriculum (CCE
   2021)
- Mental health education NEW
- Professional development of teachers NEW

 Greater emphasis on Outdoor Education; to develop resilience and ruggedness, nurturing strong minds, hearts and bodies in our young

Enhance
 Education
 and Career
 Guidance
 (ECG) to help
 students
 discover
 interests and
 aspirations

REFRESHING OUR CURRICULUM FOR THE FUTURE

## **Knowing Asia**

To help students understand Asia better and be equipped to take on new opportunities from Asia's growth.

## **Learning Languages for Life**

## **Enhance support for MTL Learning**

- Encourage lifelong learning of MTL to as high a level as possible
- Deepen our cultural roots and prepare students to tap into regional opportunities

# **Enhance support for Third Languages and ASEAN Languages**

 Provide greater flexibility and accessibility for students to learn a third/ ASEAN language to tap into global/regional opportunities

**Education as an Uplifting Force** 

Ensuring access to opportunities regardless of background

UPLIFT seeks to build a seamless support ecosystem within and beyond schools by strengthening:

- After-school care and support
- School-community partnerships
- Case coordination and management

#### **EDUCATION AS AN UPLIFTING FORCE**

## Strong Start for Every Child

#### Good Early Childhood education

- Develop a strong foundation in life
- Prepare them to benefit from our education system.
- Scale up to 60 MOE Kindergartens by 2025
- Increase government supported preschools to 80%
- Provide Nurturing Early Learners (NEL) curriculum to other preschools
- Set up National Institute of Early Childhood Development (NIEC)

## Strengthen Support for Special Educational Needs (SEN)

- Enhance support in Mainstream Schools, SPED Schools and IHLs
  - Provide education in settings that best address students' needs
  - Quality: Customised educational settings for students with SEN, depending on their disability profile and severity
  - Affordability: Ensure quality SPED is affordable
  - Accessibility: Ensure sufficient school places, and offer parents guidance on suitable settings for children with SEN

## **Develop a Quality Higher Education Sector**

#### Enhancing Admission Pathways

- Aptitude-based Admissions
- Increased opportunities for Polytechnic Admission

#### Learning by Doing

- Work-Learn Technical Diploma for ITE graduates
- Earn and Learn Programme for Polytechnic graduates
- Work Study Degree Programme
- Affordable Higher Education
- Inter-disciplinary Learning in IHLs

## **Focus Areas**

#### Learn for life

 We educate our students holistically to develop in them 21<sup>st</sup> century competencies, values, an intrinsic motivation to learn and relevant skills for the future.

#### Embrace All Learners

 We honour our students' individual traits. We embrace a harmonious community of diverse learners as a strength and as an outcome.

#### Enhance Student Well-being

 We care for our students' mental, physical and social wellbeing in order to develop strong character, minds and bodies.

## Our Beliefs on Education

Areas	Beliefs
Teacher	Belief that every <i>teacher</i> is a caring, skillful and reflective educator who can ignite passion and who believes that every child can learn and should be given the best opportunity to learn.
Child	Belief that every <i>child</i> has unique strengths and passion, who has the potential to learn and should be given the opportunity to learn and be an engaged and lifelong learner.
Learning	Belief that <i>learning</i> should be meaningful, experiential and transformational. Learning should also be engaging, purposeful, multi-faceted and customized to meet all learners' needs.
Environment	Belief that the <i>environment</i> is safe and caring for every child to learn with respect and confidence. The environment is also the child's 'third teacher'. Thus, it should be purposefully harnessed, designed and planned to inspire and uplift the children's heart and mind space.

## **Our Vision**

### **Passionate Learners**

Students who are passionate about learning and who take responsibility for their own learning

## **Critical Thinkers**

Students who are able to think critically, problem solve and are discerning

## **Anchored Leaders**

Students who are anchored in values and who inspire others to do good

## **Our Mission**

We nurture passionate learners, strong in character

## **Our Values**

## Resilience

Resilience our mindset; that we continue to strive in all circumstances

## **Integrity**

Integrity our foundation; that we are guided by values in all that we do

## Service

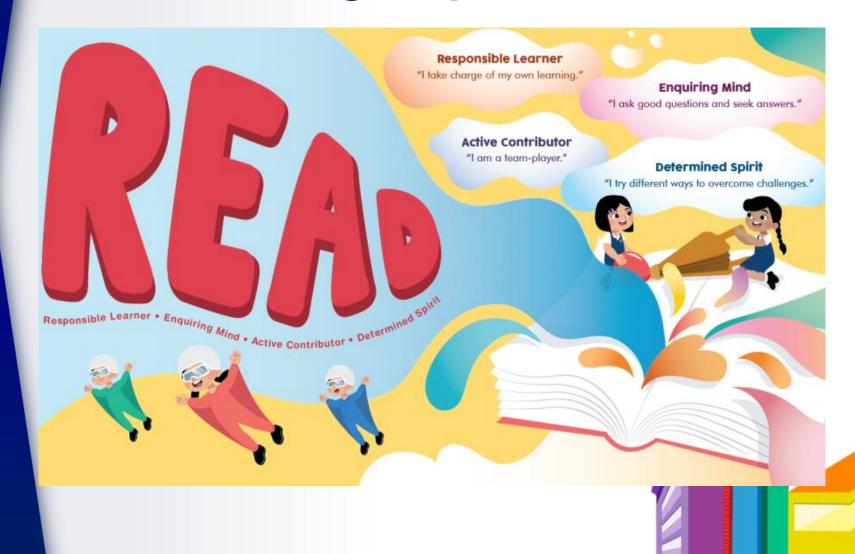

Service with a heart; that we serve others with sincerity and humility

### **Excellence**

Excellence our quest; that we aspire to be the best we can be

## Our R.E.A.D Learning Dispositions

# Intrinsic Motivation in Children

Mastery	Autonomy	Purpose
The desire to continually improve at something at matters	The desire to direct our lives	The desire to do things in service of something larger than ourselves

Source : Daniel Pink's 'Drive'

## Top 10 skills of 2025

Analytical thinking and innovation

Active learning and learning strategies

Complex problem-solving

Critical thinking and analysis

Creativity, originality and initiative

Leadership and social influence

Technology use, monitoring and control

Technology design and programming

Resilience, stress tolerance and flexibility

Reasoning, problem-solving and ideation

Type of skill

Problem-solving

Self-management

Working with people

Technology use and development

#### Social and cultural awareness

- Foster greater respect and tolerance for others
- Encourage empathy
- Foster cultural selfawareness.

#### Critical thinking/ problem-solving

Give constructive feedback

#### Competencies

#### Creativity

- Offer opportunities to build and innovate
- Provide autonomy to make choices

#### Leadership

Adaptability

and structure

emotions

· Foster the ability to process

Practise both flexibility

- Foster the ability to negotiate
- Encourage empathy

#### How to teach all skills

- Encourage play-based learning
- · Break down learning into smaller, coordinated pieces
- Create a safe environment for learning
- Develop a growth mindset
- Foster nurturing relationships
- · Allow time to focus
- Foster reflective reasoning and analysis
- · Offer appropriate praise
- Guide a child's discovery of topics
- Help children take advantage of their personality and strengths
- Provide appropriate challenges
- Offer engaged caregiving
- Provide clear learning objectives targeting explicit skills
- Use a hands-on approach

#### Communication

Create a language-rich environment

#### Collaboration

- Foster greater respect and tolerance for others
- Provide opportunity for group work

#### Persistence/grit

Build in opportunities to learn

#### Initiative

- Provide long-term. engaging projects
- Build confidence in the ability to succeed
- Provide autonomy to make choices

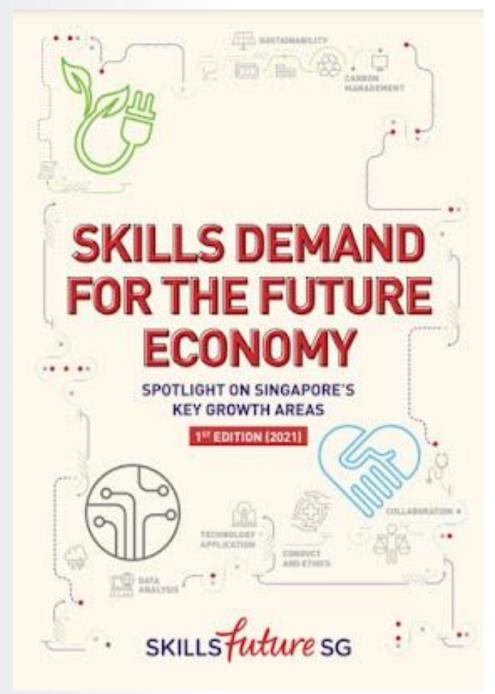

#### Curiosity

- Encourage questions/
- guessing
- Provide autonomy to make choices
- Instil sufficient knowledge to ask questions and innovate
- Evoke contradiction

from failure

## Character qualities

## Critical Core Skills (CCS)

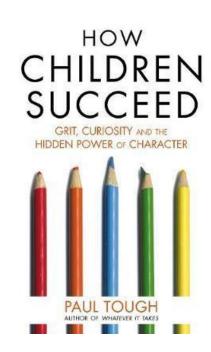

## **KEY MESSAGES**

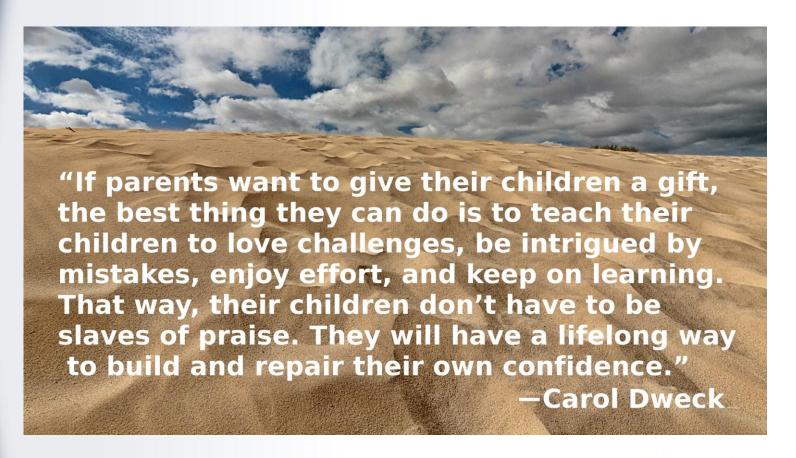

- Encourage lifelong interest in learning by not over-emphasizing academic performance & by focusing your child's learning journey, rather than comparing them to others
- Give our children the time and space to deepen learning
- Focus on building discipline, character and critical core skills required for a fast changing world
- Partner the school in the quest for the holistic development of your child [in all core and cocurricular activities]
- Role-model values [RISE] and attitude of Learn for Life

"What matters most in a child's development, they say, is not how much information we can stuff into her brain in the first few years. What matters, instead, is whether we are able to help her develop a very different set of qualities, a list that includes persistence, self-control, curiosity, conscientiousness, grit and self-confidence."

Paul Tough
How Children Succeed: Grit,
Curiosity, and the Hidden Power of
Character

**THANK YOU!**
